THE CONNAISSANCE: ECONOMICS RESEARCH PAPER

‘The SDGs represent a clear economic imperative. Their achievement would mean greater productivity, increased employment and stronger economic growth’. With the emphasis on environment and sustainability, participants are required to prepare a research paper based on any one of the sustainable development goals in context to the impact of it on the Indian economy with emphasis on the global environment.

Harvard Referencing Basics: Reference List

A reference list is a complete list of all the sources used when creating a piece of work. This list includes information about the sources like the author, date of publication, title of the source and more. A Harvard reference list must:

- Be on a separate sheet at the end of the document
- Be organised alphabetically by author, unless there is no author then it is ordered by the source title, excluding articles such as a, an or the
- If there are multiple works by the same author these are ordered by date, if the works are in the same year they are ordered alphabetically by the title and are allocated a letter (a,b,c etc) after the date
- Be double spaced: there should be a full, blank line of space between each line of text. Contain full references for all in-text references used.
